

CHAMROEUN YORNGSOK

Phnom Penh, Cambodia | Phone: +85515901929 | Email: chamroeunyorngsok@gmail.com | LinkedIn: <https://www.linkedin.com/in/chamroeun-yorngsok/> | Personal Website: <https://seaweedboy.github.io/YORNGSOK-Chamroeun-Resume/>

SUMMARY

I work as a R-Shiny Developer specialised in transforming complex geospatial datasets into actionable, climate, and real-world public health solutions through interactive dashboards, utilizing tools like **R**, **Python**, and **Google Earth Engine** alongside with 'human-in-the-loop' approach. My career goal is to become a researcher, who lead and execute multidisciplinary health economics research initiatives regionally and globally.

EDUCATION & EXCHANGE PROGRAMME

- | | |
|--|----------------------------------|
| Universiti Malaysia Sarawak (UNIMAS), Kuching, Sarawak, Malaysia | Summer School (2026) |
| <ul style="list-style-type: none">• <i>The MIDSEA Summer School and Symposium 2026</i>• <i>Relevant Coursework: Infectious Diseases Modelling (SIR)</i> | |
| University of Burgundy, Dijon, France | Graduated (2021-2023) |
| <ul style="list-style-type: none">• <i>Master's Degree in Data Analysis for Spatial and Environmental Economics</i>• <i>Relevant Coursework: Spatial Econometrics, Theory of Change, Panel Data</i> | |
| Royal University of Law and Economics, Phnom Penh, Cambodia | Graduated (2017-2021) |
| <ul style="list-style-type: none">• <i>Bachelor's Degree in Economics and Management</i>• <i>Relevant Coursework: Econometrics, Management, and Marketing</i> | |
| University of Montana, Missoula, the USA | Exchange Programme (2022) |
| <ul style="list-style-type: none">• <i>Exchange Programme in Environmental Issues</i> | |

TECHNICAL SKILLS

- **Data Engineering & Programming:** Proficient in designing data pipelines and performing advanced analysis using **R** (specifically **tidyverse**, **dplyr**, and **ggplot2**) and **Python** (using **pandas**, **numpy**, **xarray**, and **geopandas**) for structured data manipulation.
- **Spatial Data & GIS Tools:** Experienced in extracting, processing, and mapping spatial-environmental datasets using **Google Earth Engine (GEE)**, **QGIS**, and R-spatial packages (**sf**, **terra**, **raster**, and **leaflet**).
- **Interactive Dashboard Architecture:** Skilled in architecting end-to-end web applications and custom data visualization interfaces using **R-Shiny**, **bslib**, and **echarts4r**.
- **Version Control & Collaboration:** Practiced using **Git** via command line and GUI for code versioning, branch management, collaborative development, and project tracking.

WORK EXPERIENCE

- | | |
|---|---------------------|
| IRD Cambodge (Research Centre), R-Shiny Developer, Phnom Penh, Cambodia | 2024-Present |
| <ul style="list-style-type: none">• Dashboard Development:<ul style="list-style-type: none">○ Develop and maintain the healthcare and disease-related dashboards to communicate key insights and recommendations.○ Monitoring and Evaluation: Enhanced surveillance system adoption by integrating Human-in-the-Loop (HITL) feedback from provincial field missions into dashboard design, aligning complex data triggers with real-world user workflows and visualisation needs.• Spatial Data:<ul style="list-style-type: none">○ Climate data acquisition (precipitation and temperature) using Google Earth Engine, Python, and R.• Presentations and Trainings: | |

- **Presented:** “GeoCambodia.org: A Web Application to Visualize Cambodia Then & Now” | FOSS4G-Asia, Bangkok, Thailand | 15-18 December 2024
- **Trained:** “Introduction to R and Raster Data” | R-Spatial Training 2025, Phnom Penh, Cambodia | 05-09 May 2025

Hummingbirds, GIS (Geographic Information System) Intern, Paris, France

03/2023-10/2023

- **Reducing Emissions from Deforestation and Forest Degradation (REDD+):**
 - Build the evaluation matrix to identify priority areas for REDD+ project in Cambodia, Colombia, and Liberia
 - Conduct the GIS study on the deforestation rate by using satellite images
 - Study and identify the baseline scenario to make the carbon credit calculation possible.
- **Afforestation, Reforestation, and Revegetation (ARR):**
 - Create a script/protocol to calculate the eligible areas (Python + Google Earth Engine) by using Land Use/Cover Classification (LULC) methodology.
- **Natural Risk Assessment:**
 - Developed protocols and tools to assess the natural disaster risk of drought (the Standardised Precipitation-Evapotranspiration Index or SPEI), wildfire (Normalized Burn Ratio), and flood (MODIS dataset).

PROJECTS & LEADERSHIP EXPERIENCE

RULers Community, Co-founder (Social Enterprise Lead), Phnom Penh, Cambodia

2019-Present

- RULers is a digital student community that aims to help thriving university students to learn, connect & impact through interactive extracurricular activities & real-time information.
 - links: <https://web.facebook.com/rulers.community> & <https://t.me/genxtcommunity>

GreenTerrace, Co-founder, Phnom Penh, Cambodia

2020-2023

- We are the **number 1 team** that won the final pitch under **the GreenTerrace** startup competition (SmartSpark Cohort 6—Environmental Theme) with a \$3000 grant to launch the startup. **GreenTerrace** is a balcony gardening service to help people in the city to grow and eat their own vegetables at home.
